

Engineering student at WPI with 4 years of hands-on fabrication experience. Skilled in using hand tools, maintaining equipment, and working efficiently in fast-paced environments. Experienced in audio engineering for live sound. Strong interest in CNC and manual machining, and mechanical design.

EDUCATION	Worcester Polytechnic Institute Worcester, Massachusetts <i>BS Mechanical Engineering, Minor in Manufacturing Engineering</i> 2025 - 2029 <i>(expected)</i> - GPA: 3.5/4.0 - Member of Lens & Lights Club - Relevant Coursework: ME 1800: Manufacturing Science, Prototyping, And Computer-Controlled Machining; ES 1310: Intro to CAD (Solidworks)
EXPERIENCE	Peer Learning Assistant for ME 1800 - Facilitate lab sessions for class - Assemble and probe tooling, and set up workholding for lab sessions - Train other students how to operate Haas CNC machines - Perform basic maintenance on machines WPI Lens and Lights Secretary - Setup and lead sound for events on campus - Operate sound consoles at events - Take minutes at all meetings - Manage merch sales within club - Project 35mm and 70mm film on DP70 projector FIRST Robotics Competition Team 5940 - Head of Fabrication since 2024, member since 2021 - Led a team of 30+ students through full robot builds
SKILLS	CAD Software: 4 years experience with Onshape - Basic familiarity with Solidworks and Fusion 360 CAD CAM Software: - Extensive experience with programming 2.5D parts in Fusion 360 - Basic experience with 3 axis mill and lathe parts in Mastercam Tools & Equipment: - Bridgeport manual knee mill - Manual 13x40 engine lathe - Woodworking equipment (table saw, miter saw, band saw, drill press) - CNC Router (ShopSabre 23) - Haas TM-0 Mill & ST-10 Lathe with Next-Gen controller - Epilog 12x24 CO2 Laser - Various 3D printers Sound Consoles: - DiGiCo Quantum 225 - DiGiCo S31 - Yamaha QL5 & QL1 - Yamaha DM3 - Midas M32R
